

Netherlands Space Office

Funding opportunities

14/02/2023

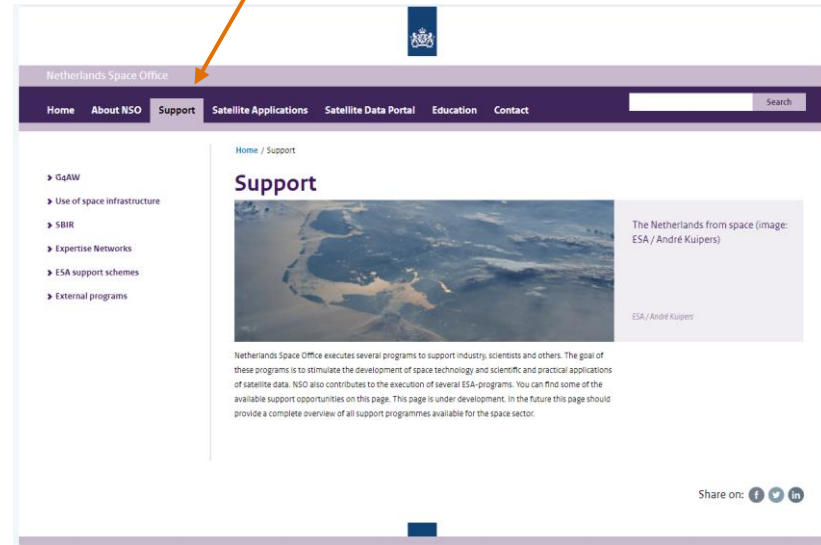

Coco Antonissen

Funding opportunities

- Innovation procurement support
- Expertise network water
- ESA BASS & InCubed
- Horizon Europe

- Partners for Water (Floor Crispijn, RVO)

Innovation procurement support

Stimulating the use of satellite data (within the government) by innovating together with the industry.

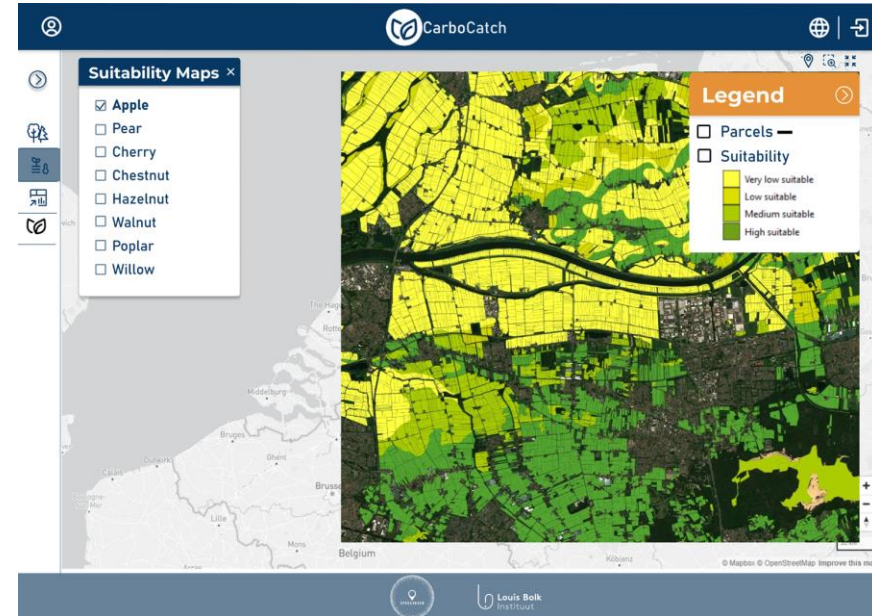

For government: active

For industry: passive

Goal: develop a sustainable service for a (government) user

Example: SBIR Climate Mitigation and Adaptation

In 2023: initiate a call related to biodiversity (launching date: tbd)

Phase 0
Explore

Phase 1
Feasibility

Phase 2
Demonstration

Phase 3
Commercialisation

Questions? Contact:

Coco Antonissen: c.antonissen@spaceoffice.nl

Kathelijne Beenen: k.beenen@spaceoffice.nl

Expertise network water

“EO data for water research and applications”

Goal: strengthen research position by working together

For who: Dutch universities, knowledge institutions and industry

Questions? Contact:

Jolien Diekema: j.diekema@spaceoffice.nl

Radboud Koop: r.koop@spaceoffice.nl

ESA BASS & InCubed

- National support via ESA
- Possible to collaborate with international partners
- National letter of support required!

Questions? Contact:

Kathelijne Beenen: k.beenen@spaceoffice.nl

Horizon Europe

- Many opportunities! For example:
 - HORIZON-CL6-2023-BIODIV-01
(deadline: March 28)
 - HORIZON-MISS-2023-OCEAN-01-04
(deadline: sept 20)

Questions? Contact:

Frank Winters (for space calls): frank.winters@rvo.nl

Saske Hoving (for water & biodiversity): saske.hoving@rvo.nl

PARTNERS FOR WATER

Floor Crispijn, Netherlands Enterprise Agency (RVO)

**PARTNERS
VOOR WATER**

Partners for Water Subsidy scheme

Tuesday February 14

ir. Floor Crispijn

Netherlands Enterprise
Agency (RVO)

Netherlands International Water Ambition

'To increase water security and water safety in the world of humans, plants and animals, and to optimize the Dutch contribution to this and the Dutch earning capacity.'

Partners for Water Subsidy Scheme

'For innovation knowledge, expertise and strength for water safety and security in deltas, delta cities and river basins abroad.'

In short:

- Innovative feasibility studies and pilot projects
- Businesses, research organizations and NGOs
- SDG 2,6,11,13,14,15
- Water safety and water security
- Deltas, delta cities and river basins abroad
- Mitigate environmental and climate risks
- Emphasis on biodiversity, climate adaptation and circularity
- ICSR (International Corporate Social Responsibility) guidelines
- All countries excluding fragile states

Innovation impacting water safety and security (40-70% funding)

Feasibility study

(1 year – max 250K)

Pilot project

(2 years – max 600K)

Assessment criteria

1. Innovation
2. Collaboration
3. Local embeddedness
4. Technical sustainability
5. Climate and environmental effects
6. Impact on water safety or water security
7. Project plan, budget and explanation

Example | IWACATECH Mozambique

Dates

- 2 Rounds a year
- First opening: From Friday, 20 January 2023 12:00 CET - Friday, 17 February 2023 12:00 CET
- Second opening: From Friday, 30 June 2023 12:00 CEST - Friday, 8 September 2023 12:00 CEST

● Monday 15 May 2023
Open for intake interviews second application round 2023

● Friday 11 August 2023
Closing date for applying for intake interviews second 2023 round

● Friday 30 June 2023
Open for subsidy applications for the second 2023 round at 12:00 CEST

● Friday 8 September 2023
Closing date for applications for the second 2023 opening at 12:00 CEST
