

Netherlands Space Office

Stimulating EO innovation

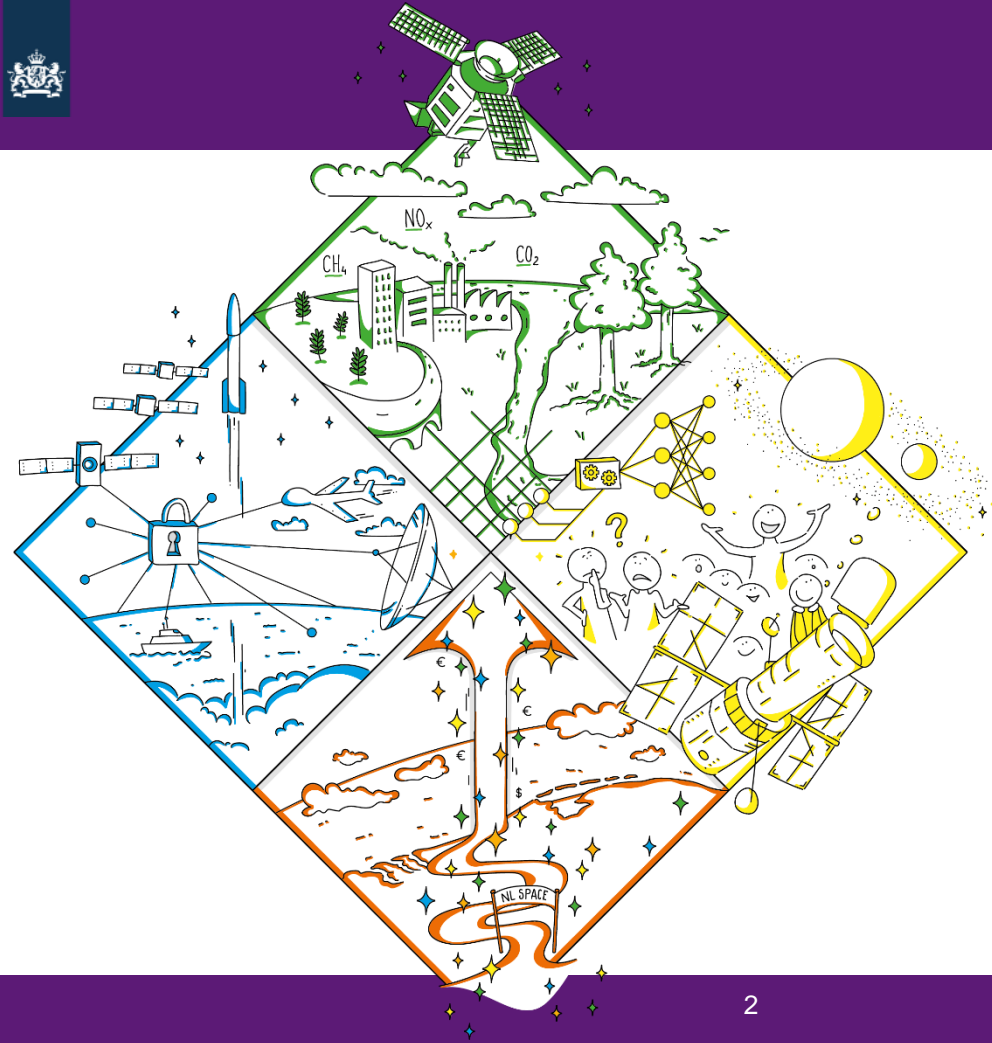

Coco Antonissen – Advisor Satellite Applications

Netherlands Space Office

- ▶ NL Space Agency
- ▶ Task: advise on and implement of the Dutch space policy

Mission: Maximise the benefits of space for society, science and economy

NL Space Industry

Space Infrastructure (Upstream)

Launchers	Satellites
AIRBUS, AIRBUS SPACE SYSTEMS	IRISPAAC, SATELLITEN
Propulsion	IoT
APP, DAWN, ...	hiber
Satellite Operations	Mission Operations
Viasat, inmarsat, SES	serco
Engineering & Test Services	
ets, TERMA, esa, satsearch, ntr, ...	
Subsystems & Components	
airborne, TNO, LENS, ARCFON, ...	
Satellite Communication	
IGP, Intellian, MARLIN, MASAT	

Space Data and Applications (Downstream)

Earth Observation Applications

NEO, KNMI, SWECO, ReefSupport, Intermoms, ...

Data Analytics & Insights

CGI, SLTN, IntelInfo, ...

Location-based Services

ParkBee, PARSEE TISING, smartQare, ...

Drone/UAV Mapping

Birds, DATACRAFT, HIView, ...

Other Space Data Applications

MyLab Analytics, ...

Other Space Industry Services

Space Consultancy

disc, KEC, HKV, Deltek, Groundstation SPACE, ...

Space Education

Telfort, UNIVERSITY OF TWENTE, TU/e, ...

Research, Innovation and Incubation

DELFT, SBIC, Innovation Quarter, ASTRON

Industry and Professional Associations

SPACED, ...

Space Museums

SCIENCE MUSEUM, ...

Space Recruitment

SPACE, AURORA

Space Creative Services

Visual, ...

Government

Netherlands Space Office, ...

How to stimulate the use of satellite data applications?

Role of NSO

Advise (e.g. procurement, implementation of services)

Facilitate (e.g. satellite data portal, networking, matchmaking)

Support (e.g. innovative procurements)

SBIR Financing Scheme

SBIR

SBIR

Industry

Phase 0
Explore

Phase 1
Feasibility

Phase 2
Demonstration

Phase 3
Commercialisation
