

COPERNICUS CONNECTION

SHAPING THE FUTURE OF TERRITORIAL
MANAGEMENT WITH COPERNICUS DATA

Presentation of the project website and social media pages

Grazia M. Fiore
Eurisy

Grazia.fiore@eurisy.eu

LAUNCH EVENT, 3 JULY 2023 11:00 - 12:00 CET

Members

Activities

Events

Fora where pioneering public authorities, agencies and SMEs from around Europe can share their hands-on experience to teach, learn and innovate across sectors.

Projects

Eurisy answers to European calls taking part in international consortia for different projects.

Stories, reports & videos

Based on its work with end users, Eurisy publishes articles, reports and videos about the latest on satellite applications.

Approach

Facilitator → Explore

Raise awareness of satellite applications to help professional communities in many sectors: from transport to risk management, from habitat protection to energy, from climate change to the IoT.

Matchmaker → Connect

Support potential end users of satellite applications by leveraging its vast network among space and non-space communities; understanding patterns and links and/or creating them for mutual benefits.

Adviser → Inform

Provide feedback to decision-makers on possible measures to overcome obstacles in diffusing space-derived innovation in society.

NON-PROFIT ASSOCIATION OF SPACE AGENCIES
